Northville Downs is excited to announce that after being in business in downtown Northville for almost 75 years, we have entered into a contract to develop this unique parcel of land. We appreciate the support that the city of Northville and the surrounding communities have given us throughout the years.

Live harness racing and simulcast wagering will continue at our current location through 2020. We are in the process of exploring multiple other locations to develop a 1st class, state of the art racing and gaming facility that Michigan will be proud of. We will continue to work closely with state and local representatives to implement the necessary changes that other states around us have, so we can bring racing back to its finest day.

Northville Downs is open 7 days per week from noon to midnight and live racing happens every Friday and Saturday night at 7:30pm. Make your reservations now for the Kentucky Derby on May 5th and the Preakness and Belmont Stakes are soon to follow. For reservations, call 248-349-1000.
